1. EXECUTIVE SUMMARY

Product Name: FC 2015 Official Landing Page | **Primary CTA:** 'Explore Club Story' / 'About FC 2015'

Problem Statement: Founded in 2015 in Legon, Accra, FC 2015 is an ambitious Division Two club with a distinctive brand identity (Golden Eagle crest, imperial gold and royal blue colors). The club currently lacks a centralized web presence, causing fragmented match inquiries, unstructured trial signups, and missed commercial sponsorship opportunities.

Proposed Solution: A modern, mobile-first landing page serving as FC 2015's digital headquarters. It blends high-energy sports presentation inspired by **Atlanta City FC**, **Arsenal FC**, and **Manchester United FC** with practical Division Two conversions: promoting matches in Legon, signing up trialists, engaging sponsors, and showcasing official jerseys.
